

UKRAINE RECOVERY GUARANTEE

Support and funding for strategic investments in Ukraine's reconstruction.

Financial guarantees pave the way for the implementation of investment projects that contribute to Ukraine's recovery and development. They support the financing of strategic investments, reduce risks for financing institutions, and help mobilise private capital into areas that are key to the country's economic recovery, modernisation, and long-term prosperity.

The aim of the 'Ukraine Recovery Guarantee programme' is to provide individual guarantees to entities (private companies or those in the public sector, excluding the state) registered in Ukraine for loans provided by Ukrainian partner banks or Czech Export Bank.

Applications may be submitted throughout the duration of the entire programme. The 'Ukraine Recovery Guarantee Programme' call comprises several rounds, with the deadline for the first round of applications for evaluation closing on 11 November 2026.

Terms and benefits

The programme provides bank guarantees for the financing of investment projects carried out in Ukraine.

Guarantee amount

**up to 80 % of the
guaranteed loan**
